Assignment 11: SQL Data Conversion & Concatenation

Overview:

Practice data type conversion and string concatenation in SQL using an Orders table.

1. Create and Populate Table

```sql
CREATE TABLE Orders (
  OrderID INT PRIMARY KEY,
  OrderDate DATE,
  Amount DECIMAL(10,2)
);
INSERT INTO Orders (OrderID, OrderDate, Amount) VALUES
  (1, '2024-11-01', 250.50),
  (2, '2024-11-02', 300.75),
  (3, '2024-11-03', 150.25);
```

Submission Type : Write the SQL query in the **PDF/Doc/Word** file and Take a screenshot of this part Output **(as screenshot_1)** and save it in the same **PDF/Doc/Word** file.

2. SQL Query Tasks

1. **a) Amount to String:** Convert the Amount column to a textual string.
SQL:
```
SELECT CAST(Amount AS CHAR(10)) AS AmountText FROM Orders;
```

Submission Type : *Write the SQL query in the **PDF/Doc/Word** file and Take a screenshot of this part Output **(as screenshot_2a)** and save it in the same **PDF/Doc/Word** file.*

2. **b) Date to String:** Format OrderDate as a string (e.g., 'YYYY-MM-DD').
SQL:
```
SELECT FORMAT(OrderDate, 'yyyy-MM-dd') AS OrderDateText FROM Orders;
```

Submission Type : *Write the SQL query in the **PDF/Doc/Word** file and Take a screenshot of this part Output **(as screenshot_2b)** and save it in the same **PDF/Doc/Word** file.*

3. **c) String to Date:** Convert literal '2024-11-05' into a DATE type.
SQL:
```
SELECT CAST('2024-11-05' AS DATE) AS ConvertedDate;
```

Submission Type : *Write the SQL query in the **PDF/Doc/Word** file and Take a screenshot of this part Output **(as screenshot_2c)** and save it in the same **PDF/Doc/Word** file.*

4. **d) Extract Year:** Retrieve the year component from OrderDate.
SQL:
SELECT YEAR(OrderDate) AS OrderYear FROM Orders;

Submission Type : *Write the SQL query in the* ***PDF/Doc/Word*** *file and Take a screenshot of this part Output* ***(as screenshot_2d)*** *and save it in the same* ***PDF/Doc/Word*** *file.*

5. **e) Concatenate Fields:** Combine OrderDate and Amount into one string.
SQL:
SELECT CONCAT(DATE_FORMAT(OrderDate, '%Y-%m-%d'), ' - $', Amount) AS Summary FROM Orders;

Submission Type : *Write the SQL query in the* ***PDF/Doc/Word*** *file and Take a screenshot of this part Output* ***(as screenshot_2e)*** *and save it in the same* ***PDF/Doc/Word*** *file.*

Submission Guidelines:

Create One Main Folder (named Assignment11_YourName) which includes -

- One **Doc/PDF/Word** file containing all the Queries and the screenshots of each part.
- Put your SQL file as **Assignment11_YourName.sql**

Convert the folder into ZIP format.
Upload the ZIP folder on the submission portal.

Watch this to learn how to create ZIP file
